

Dear FCC,

I would like to express my support for satellite radio and urge you to reject the NAB's petition 04-160. I'm glad to be a part of the latest technology in broadcasting, and have been very satisfied with my satellite radio experience. I would be very disappointed to see the traffic and weather channels removed, as they provide access to necessary daily information, in a way that no other radio broadcasting station can provide. So I think it would be a big mistake to even consider the NAB's petition. I appreciate your time and cooperation.

Sincerely,

Lamar
